

BIODEGRADABLE DISINFECTANT

Concentrated disinfectant · All-purpose cleaner

-  ECOLOGO[®] Certified
-  Fully biodegradable
-  Food safe
-  As a disinfectant, kills 99.99% of bacteria, fungi and viruses
-  Deodorizer

BIODEGRADABLE DISINFECTANT was developed to combine the power of peroxide with biodegradable emulsifying detergents to provide deep cleaning and deodorizing results. It is proven to brighten and deodorize a variety of surfaces while disinfecting all high frequency touch points.

DIN: 02503476

APPLICATIONS

- Stainless Steel
- Walls
- Countertops
- Tiles
- Hard surfaces
- Appliances
- Classroom equipment
- Touch points
- Floors
- Washroom surfaces

TECHNICAL DATA

Appearance: clear liquid

Colour: colourless

Foam: moderate

Odour: citrus

pH: 5.5-6.5

Packaging size

4 x 3.78L

Packaging codes

A100160-4cs

*Recycled plastic is for bottles and jugs

DIRECTIONS

Unheated tap water should be used for dilution.

General cleaning and pre-cleaning:

Hard surfaces such as stainless steel, walls, toilets, countertops: Fill spray bottle or bucket with BIODEGRADABLE DISINFECTANT at 16 ml per litre of cold water (2 oz/gallon) (1:64). Apply and clean surface with damp microfiber cloth.

Hard floors mopping: Fill mop bucket with BIODEGRADABLE DISINFECTANT at 4-8 ml per litre of cold water (0.5-1 oz/gallon) (1:256-1:128). Apply and clean floor with damp mop.

Hard floors auto scrubbing: Fill auto scrubber with BIODEGRADABLE DISINFECTANT at 4 ml per litre of cold water (0.5 oz/gallon) (1:256). Clean floor with auto scrubber.

General Disinfection:

Hard surfaces such as stainless steel, walls, high touch points, toilets, countertops: Fill spray bottle or bucket with BIODEGRADABLE DISINFECTANT at 72 ml per litre of cold water (9 oz/gallon) (1:13). Apply to clean surface with sprayer or damp microfiber cloth. Allow to remain wet for 10 minutes and air dry.

FOR USE IN FOOD PLANTS: Avoid contamination of food during application and storage. All food should be removed or covered prior to use and food contact surfaces are to be thoroughly rinsed with potable water so there will be no contamination of food as a result of its use.

FOR USE IN HOSPITALS: This product is not to be used as a sterilant/high-level disinfectant on any surface or instrument that: (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

STORAGE

Store at room temperature. Store tightly closed in a cool, dry place in original container away from sunlight. Do not freeze. Keep away from heat, sparks and flame. Wear protective gloves while handling.

DESIGNED FOR THE FUTURE™

Our commitment to sustainability means we not only dedicate ourselves to creating greener, healthier and safer cleaning solutions, but also manufacturing our solutions through sustainable best practices. By providing our customers with sustainable solutions to enhance the sustainability of their facility care, cleaning process and employee health and safety, together we can share a naturally better tomorrow.

SAFE HANDLING

Before usage, ensure employees read and understand the product labels and Safety Data Sheet. Directions for use can be found on the label and the TDS. Employees can find hazard warnings, precautionary statements and first aid procedures on the SDS sheets. SDS are available online at projectclean.com or by calling 1-800-663-9925. Improper use may result in damage or injury.
