

DESCRIPTION

The clear, long wearing film produced by **SheerGloss** floor finish will reduce yellowing and resist scuffing, resulting in less frequent stripping while extending the film life between re-coats. **SheerGloss** can be used on most types of resilient flooring such as linoleum, marmoleum, vinyl sheet and vinyl composite tile.

FEATURES & BENEFITS

burnishable gloss • 20% solid • used in most facilities • 20 - 30 minutes drying time • black mark resistance • smooth leveling • initial high gloss

DIRECTIONS

A sealer is not required, but if you have a very porous floor it may be advantageous to apply **Holdout** semi-permanent sealer. Two coats are often sufficient.

Preparation: Strip the floor with **#1 Remover** then pick up spent solution with a mop or wetvac making sure solution does not dry. Rinse floor with **NeutraMax** as per label instructions.

Application:

1. Use a clean finish mop, either fine string or candy striped. Pre-wet with water and wring out mop to conserve finish.
2. Apply 4-5 even coats of **SheerGloss**. More may be required if you have an un-sealed, porous floor or need a good base to propane burnish.
3. Immerse mop in finish. Do not wring your mop but press firmly into wringer to remove excess finish.

Maintenance:

1. Dust floor with treated dust mop.
2. Clean floor by damp mopping or with an autoscrubber using Maxim's neutral detergent, **NeutraMax**, as per label instructions.
3. Spray buff or burnish as desired.

PHYSICAL DATA

Package: 4 x 3.78L cases & 18.9L pails

Appearance: liquid

Colour: milky white

Foam: low

Odour: mild, no added fragrance

pH: 8.0-8.5
