

RTU DISINFECTANT

Ready-to-use · Quaternary Ammonium (Quats)

-  Cleaner, deodorizer, disinfectant
-  Fungicide (against Pathogenic fungi)
-  Broad-spectrum virucide
-  Effective at killing SARS-CoV-2
-  Multi-purpose cleaner

RTU DISINFECTANT is formulated using quaternary ammonium compounds (quats) and is designed specifically as a general neutral cleaner and disinfectant. **RTU DISINFECTANT** is effective at killing the SARS-CoV-2 virus (COVID-19) and disinfects hard non-porous, inanimate surfaces.

DIN: 02500221

APPLICATIONS

- Stainless Steel
- Walls
- Countertops
- Tiles
- Hard surfaces
- Appliances
- Classroom equipment
- Touch points
- Sinks and faucets
- Tubs and showers

TECHNICAL DATA

Appearance: liquid
Colour: green
Foam: moderate
Odour: baby powder
pH: 11.7

Packaging size
12 x 946 ml

Packaging codes
A100600-12an

*PCR plastic is for bottles and jugs

DIRECTIONS

Unheated tap water should be used for dilution.

General cleaning and pre-cleaning:

Hard surfaces such as stainless steel, walls, toilets, countertops: Remove cap and replace with trigger sprayer. Ready to use. Do not dilute. Apply and clean surface with damp microfiber cloth.

General disinfection:

Hard surfaces such as stainless steel, walls, high touch points, toilets, countertops: Remove cap and replace with trigger sprayer. Ready to use. Do not dilute. Apply to clean surface with sprayer or damp microfiber cloth. Allow to remain wet for 10 minutes and air dry or wipe with a damp microfiber cloth.

NOTE: For the 946ml bottle, remove the cap and replace with a trigger sprayer. Ready to use.

FOR USE IN FOOD PLANTS: All food should be removed or covered prior to use and food contact surfaces are to be thoroughly rinsed with potable water so there will be no contamination of food as a result of its use.

STORAGE

Do not contaminate water, food, or feed by storage and disposal. Store in a dry place no lower in temperature than 15°C or higher than 25°C.

DESIGNED FOR THE FUTURE™

Our commitment to sustainability means we not only dedicate ourselves to creating greener, healthier and safer cleaning solutions, but also manufacturing our solutions through sustainable best practices. By providing our customers with sustainable solutions to enhance the sustainability of their facility care, cleaning process and employee health and safety, together we can share a naturally better tomorrow.

SAFE HANDLING

Before usage, ensure employees read and understand the product labels and Safety Data Sheet. Directions for use can be found on the label and the TDS. Employees can find hazard warnings, precautionary statements and first aid procedures on the SDS sheets. SDS are available online at projectclean.com or by calling 1-800-663-9925. Improper use may result in damage or injury.

DIRECTIONS

Broad-spectrum Virucide and Disinfectant: Capable of killing SARS-CoV-2 (COVID-19). See the Efficacy Data Sheet for the full spectrum of bacteria and viruses destroyed by this product.

Hospital Disinfectant: This product is not to be used as a sterilant/high-level disinfectant on any surface or instrument that: (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

NOTE TO PHYSICIANS: Probable mucosal damage may contraindicate the use of gastric lavage.

STORAGE

Do not contaminate water, food, or feed by storage and disposal. Store in a dry place no lower in temperature than 15°C or higher than 25°C.
