

## DESCRIPTION

**#1 Remover** breaks down all floor finishes and non-permanent sealers completely in only 5 minutes, reducing your costs. **#1 Remover** is for use on all types of flooring such as resilient tile, terrazzo, marble, stone, vinyl and vinyl composites. NOTE: Manufacturers of linoleum and marmoleum flooring do not recommend strippers be used on their floors unless they have a low pH like Maxim's **Burlesque**, which was developed specifically for linoleum.

## FEATURES & BENEFITS

**low VOCs (volatile organic compounds) • for all types of flooring • fast acting formula • does not require hot water**

## DIRECTIONS

Test flooring compatibility with **#1 Remover** before use. Apply a few drops of **#1 Remover** to the flooring in a hidden area. Wait a few minutes then rinse. Make sure the product does not damage your flooring.

### Procedures:

1. Dust mop entire surface to be stripped.
2. Dilute **#1 Remover** with cold or warm water (refer to the dilution ratio below). Apply this dilution to an area approximately 10 ft x 10 ft and allow 5 minutes for **#1 Remover** to liquefy the finish. Do not permit the stripper to dry on the floor.
3. Scrub thoroughly with a floor machine and a blue or black pad. If you do not have a machine, agitate with a mop or doodle bug holder and a pad - longer dwell times may be required.
4. Pick up the solution with a wet-vac, auto-scrubber or mop and rinse the floor with NeutraMax at a dilution of 1 oz per US gallon of cold water (8 ml/liter) (1:128).

**Heavy finish build-up:** Use 26 oz per US gallon of water (200 ml/litre) (1:5).

**Light finish build-up:** Use 13 oz per US gallon of water (100 ml/litre) (1:10).

## FIRST AID

**Eyes & Skin:** If eye or skin contact occurs, immediately flush with plenty of water for at least 15 minutes. Call a physician. **Inhalation:** Remove to fresh air. Call a physician. **Ingestion:** If swallowed, promptly give plenty of water or milk. Do not induce vomiting. Call a physician.

**For further information, please review the Safety Data Sheet (SDS) and Product Label.**

## PHYSICAL DATA

Package: 4 x 3.78L cases & 18.9L pails

Appearance: clear liquid

Colour: none

Foam: low-moderate

Odour: ammoniacal

pH: 12.0-13.0

[ProjectClean.com](http://ProjectClean.com)

1607 Derwent Way, Delta, BC, Canada V3M 6K8  
1-800-663-9925

**Product codes:**

1300531-4cs  
1300531-18.9

### STORAGE & HANDLING

Keep from freezing. Store upright in original closed container at room temperature away from children. Do not mix with any other chemicals.

Do not store in aluminum, copper, copper alloys and galvanized containers.
