

DESCRIPTION

Max Pro San is a highly concentrated bleach solution designed to be automatically dispensed into the rinse cycle of low temp dishwashing machines and certain types of bar glass washers.

FEATURES & BENEFITS

12% bleach solution • automatically dispensed concentrated product • meets all Health Standard requirements • can also be used as a third sink sanitizer • for low-temp warewash machines

DIRECTIONS

Low temp warewashing machine: Automatically dispensed through machine injection system at required concentrations to meet the available chlorine requirements of the local health regulation.

Do not use in water temperature that's above 65°C (150°F).

Sanitizing food contact surface:

For non-porous surface (200 ppm chlorine solution): Add 0.26 fl. oz per US gal. of water (2mL/litre) (1:500).

For porous surface (800 ppm chlorine solution): Add 0.9 fl. oz per US gal. of water (7mL/litre) (1:140)

For Dish Machine Sanitizing rinse: 50-100ppm chlorine solution.

Ensure surfaces are cleaned (i.e. organic matter and debris are removed) prior to sanitizing. A suitable concentration/ppm testing method must be available and used regularly to ensure correct sanitizer levels. Sanitized surface must be air-dried. All food should be removed or covered prior to use and food contact surfaces are to be thoroughly rinsed with potable water so there will be no contamination of food as a result of its use.

FIRST AID

Eyes & Skin: If eye or skin contact occurs, immediately flush with plenty of water for at least 15 minutes. Call a physician. **Inhalation:** Remove to fresh air. Call a physician. **Ingestion:** If swallowed, promptly give plenty of water or milk. Do not induce vomiting. Call a physician.

PHYSICAL DATA

Package: 4 x 3.78L cases, 18.9L pails
& 2 x 10L cases

Appearance: clear liquid

Colour: yellow

Foam: none

Odour: chlorine odour

pH: 12-13
