

LAUNDRY CARE

# Max Booster

Liquid laundry booster · Alkalinity modifier

MAX BOOSTER is a closed looped, concentrated liquid laundry booster that's designed to assist laundry detergents to break down heavy soils during pre-wash or main wash cycle. It has a balanced blend of activating agents in liquid form for immediate dispersal throughout the wash load. The water conditioning agents in MAX BOOSTER enhance the laundry detergent's cleaning capability for exceptional results in hard water areas. MAX BOOSTER should be used along with the regular amount of detergent for each load.

- Enhances detergency
- Retains tensile strength
- For hard water conditions
- Food safe

## APPLICATIONS

Commercial Laundry Dilution System

## TECHNICAL DATA

**Appearance:** clear liquid

**Colour:** red

**Foam:** none

**Odour:** odorless

**pH:** 13.0-14.0

**Packaging size**

18.9L pail

**Packaging codes**

1200588-18.9

# PROMAX®

## DIRECTIONS

MAX BOOSTER is designed to be dispensed directly from the shipping container by your liquid laundry injection system.

**NOTE:** *When MAX BOOSTER is used, be sure laundered material is adequately rinsed with potable water.*

**FOR USE IN FOOD PLANTS:** All food should be removed or covered prior to use and food contact surfaces are to be thoroughly rinsed with potable water so there will be no contamination of food as a result of its use.

---

## STORAGE

Keep from freezing. Store upright in closed container at room temperature away from children. Do not mix with any other chemicals.

## SAFE HANDLING

Before usage, ensure employees read and understand the product labels and Safety Data Sheet. Directions for use can be found on the label and the TDS. Employees can find hazard warnings, precautionary statements and first aid procedures on the SDS sheets. SDS are available online at [projectclean.com](http://projectclean.com) or by calling 1-800-663-9925. Improper use may result in damage or injury.
