

LAUNDRY CARE

Max Conditioner

Laundry neutralizer · Prevents yellowing

MAX CONDITIONER is a liquid neutralizing agent that's added to the final rinse cycle of a washing machine. MAX CONDITIONER lowers the pH of the rinse water and assists in residual detergent and mineral deposits removal. It contains agents to aid in the prevention of fabric discolouration and helps prevent skin irritation and bed sores.

- Contains water softeners
- Restores linens to their proper pH
- Removes unwanted residues
- Removes rust

APPLICATIONS

Laundry dilution Systems

Commercial

Industrial

TECHNICAL DATA

Appearance: clear liquid

Colour: pink

Foam: none

Odour: acidic

pH: <1.0

Packaging size

18.9L

Packaging codes

1200600-18.9

PROMAX®

DIRECTIONS

MAX CONDITIONER can be dispensed directly from the shipping container by your liquid laundry injection system.

For best working results:

Flatwork to pH 6.0-6.5

White apparel to pH 5.0-5.5

Coloured work to pH 4.5-5.0

For specific applications, please check with your Project Clean Customer Experience representative.

FOR USE IN FOOD PLANTS: All food should be removed or covered prior to use and food contact surfaces are to be thoroughly rinsed with potable water so there will be no contamination of food as a result of its use.

STORAGE

Keep from freezing. Store upright in closed container at room temperature away from children. Do not mix with any other chemicals. Do not store in aluminum, copper, copper alloys and galvanized containers.

SAFE HANDLING

Before usage, ensure employees read and understand the product labels and Safety Data Sheet. Directions for use can be found on the label and the TDS. Employees can find hazard warnings, precautionary statements and first aid procedures on the SDS sheets. SDS are available online at projectclean.com or by calling 1-800-663-9925. Improper use may result in damage or injury.
