Packaging size
 20kg

Packaging codes
 1201290-20kg

PROMAX®

DIRECTIONS

Before selecting the temperature of water for the machine, determine the type of fabric to be washed and select the correct temperature recommended by the fabric manufacturer. Some machines will have settings for different fabrics on the temperature dial (wood, nylon, cotton, synthetics). Use cool for darks and hot for whites.

Normal Washing:

Use 75 gm (2.5oz) TORNADO LAUNDRY DETERGENT per regular laundry load. Less or more may be used, depending up on the soil condition of the wash load, the size of the machine and the amount and hardness of water in the machine.

FOR USE IN FOOD PLANTS: All food should be removed or covered prior to use and food contact surfaces are to be thoroughly rinsed with potable water so there will be no contamination of food as a result of its use.

Application:

Normal washing 75gm (2.5oz) /load

STORAGE

Keep from freezing. Store upright in closed container at room temperature away from children. Do not mix with any other chemicals. Do not store in aluminum, copper, copper alloys and galvanized containers.

SAFE HANDLING

Before usage, ensure employees read and understand the product labels and Safety Data Sheet. Directions for use can be found on the label and the TDS. Employees can find hazard warnings, precautionary statements and first aid procedures on the SDS sheets. SDS are available online at projectclean.com or by calling 1-800-663-9925. Improper use may result in damage or injury.
