# Combat

Dish machine detergent · For hard water applications

COMBAT is a highly concentrated, heavy duty, alkaline detergent for automatic machine washing of cutlery, dishes, glasses, plasticwares, pots and pans. COMBAT is specifically formulated for use in hard water areas where minerals in the water cause poor results or, where extra cleaning power is required. COMBAT should not be used for manual cleaning.

## DIRECTIONS

**Dishwashing:** COMBAT is dispensed directly from shipping container into the machine by the automatic dispensing system at preset concentrations. Best results are achieved with the water temperature between 140°-160°F (60°-70°C).

**Glasswashing:** Dispensed directly from shipping container into the glass washer. Warewash items should be rinsed and sanitized after washing with a sanitizing solution such as Sanidine. COMBAT should not be used for manual cleaning.

Consult your Project Clean Customer Experience Representative for specific feeding recommendations to meet your particular needs.

**FOR USE IN FOOD PLANTS:** All food should be removed or covered prior to use and food contact surfaces are to be thoroughly rinsed with potable water so there will be no contamination of food as a result of its use.
