DIRECTIONS

Pour a little LIQUID DISH into running water to fill the basin or wash sink. Wash glasses and cups first followed by more soiled items. Grease, oils and food particles are removed to give clean, soil-free surfaces.

For hand-washing of dishes, crockery, cutlery, pots and pans: Use 8-16 ml of LIQUID DISH per litre of water (1-2 oz/gallon) (1:64-1:128).

General Cleaning:

Use 8-50 ml of LIQUID DISH per litre of water (1-6 oz/gallon) (1:20-1:128) for all washable surfaces such as walls, glass, counter tops and painted surfaces.

FOR USE IN FOOD PLANTS: All food should be removed or covered prior to use and food contact surfaces are to be thoroughly rinsed with potable water so there will be no contamination of food as a result of its use.

Application:

Hand washing of dishes, crockery, cutlery, pots & pans: 1:128-1:64

General Cleaning: 1:128-1:20

STORAGE

Keep from freezing. Store upright in closed container at room temperature away from children. Do not mix with any other chemicals. Store locked up. Store in a dry, cool, well-ventilated place.

SAFE HANDLING

Before usage, ensure employees read and understand the product labels and Safety Data Sheet. Directions for use can be found on the label and the TDS. Employees can find hazard warnings, precautionary statements and first aid procedures on the SDS sheets. SDS are available online at projectclean.com or by calling 1-800-663-9925. Improper use may result in damage or injury.
