

KITCHEN CARE

Muscle Rinse

Dish machine rinse aid · For hard water applications

MUSCLE RINSE is a liquid rinse additive which is metered into the final rinse of the dishwashing machine in very minute quantities through the ProMax rinse injector. MUSCLE RINSE contains wetting agents to greatly reduce the surface tension of the rinse water. This allows water to drain completely and quickly producing spot-free, sparkling dishes and cutlery.

- Specially formulated for hard water
- Concentrated
- For both low- and high- temp dishwashers
- Excellent rinsability

APPLICATIONS

Glassware
Silverware
Dishware

Cookware
Appliances
Pots & Pans

TECHNICAL DATA

Appearance: liquid
Colour: blue
Foam: low
Odour: mild
pH: 4.0-5.0

Packaging size
4 x 3.78 L
18.9 L

Packaging codes
1100375-4cs
1100375-18.9

DIRECTIONS

MUSCLE RINSE is specially formulated for hard water conditions. MUSCLE RINSE is automatically dispensed into the rinse cycle to eliminate water spotting on glass, china, porcelain flatware and provides streak free results with improved drying time. Best results are achieved with the water temperature between 140°F -180°F (60°C-80°C).

Consult your Project Clean Customer Experience Representative (CXR) for specific use directions.

FOR USE IN FOOD PLANTS: All food should be removed or covered prior to use and food contact surfaces are to be thoroughly rinsed with potable water so there will be no contamination of food as a result of its use.

STORAGE

Keep from freezing. Store upright in closed container at room temperature away from children. Do not mix with any other chemicals.

SAFE HANDLING

Before usage, ensure employees read and understand the product labels and Safety Data Sheet. Directions for use can be found on the label and the TDS. Employees can find hazard warnings, precautionary statements and first aid procedures on the SDS sheets. SDS are available online at projectclean.com or by calling 1-800-663-9925. Improper use may result in damage or injury.
