

INDUSTRIAL

Bleach 12%

Liquid chlorine bleach · Sanitizer & deodorizer

BLEACH 12% contains up to 12% w/v sodium hypochlorite (10.8% w/w) which is also known as household bleach, liquid bleach or simply bleach. BLEACH 12% is recommended to be used to sanitize food contact, hard non-porous surfaces. BLEACH 12% is safe to use at the recommended concentration; the compound breaks up quickly and leaves a harmless by-product after a brief period (salt and water) which makes the cleaned surfaces safe to touch.

- Brightens and whitens
- Biodegradable ingredients
- Highly concentrated
- Sanitizes food contact surfaces
- Koshercheck certified
- Laundry whitener

APPLICATIONS

- Automated dish washers
- Commercial laundry
- Food processing plants
- Well shocking
- Mold remediation

TECHNICAL DATA

- Appearance:** liquid
- Colour:** yellow
- Foam:** none
- Odour:** chlorine
- pH:** alkaline

Packaging size

4 x 3.78L
18.9L

Packaging codes

1900100-4cs
1900100-18.9

DIRECTIONS

For 100 ppm chlorine solution: Dilute 1 ml of BLEACH 12% per litre of water (0.13 oz/gal) (1:1000).

For mold removal: Dilute 10 ml of BLEACH 12% per litre of water (1.3 oz/gal) (1:100).

For process water: Up to 5 ppm calculated as available chlorine. For chiller water, in water for processing poultry carcasses internally contaminated with feces, and in red meat carcass final wash water at concentrations between 20-50 ppm, calculated as available chlorine.

DO NOT USE METAL PUMPS WITH BLEACH. It is very important not to contaminate bleach with iron. A very small amount of iron will turn the bleach to dirty looking brown color.

DO NOT MIX WITH OTHER CHEMICALS, ESPECIALLY AMMONIA AND ACIDS.

FOR USE IN FOOD PLANTS: All food should be removed or covered prior to use and food contact surfaces are to be thoroughly rinsed with potable water so there will be no contamination of food as a result of its use.

Application:

100 ppm chlorine solution	1:1000
Mold removal	1:100

STORAGE

Store in corrosive resistant container with a resistant inner liner; Keep only in original container.; Store in a dry, cool, well-ventilated place.

SAFE HANDLING

Before usage, ensure employees read and understand the product labels and Safety Data Sheet. Directions for use can be found on the label and the TDS. Employees can find hazard warnings, precautionary statements and first aid procedures on the SDS sheets. SDS are available online at projectclean.com or by calling 1-800-663-9925. Improper use may result in damage or injury.
