Smoke, tar and pitch deposits
Concrete

TECHNICAL DATA

Appearance: liquid
Colour: pink
Foam: medium
Odour: lavender
pH: alkaline

Packaging size
4 x 3.78L

Packaging codes
P300455-4cs

PROMAX®

DIRECTIONS

Spot cleaning heavily soiled surfaces: Spray on full strength C.D.S. and wipe off. Let stubborn stains soak for a few minutes before wiping.

Large surface cleaning: Dilute 90 ml of C.D.S per litre of water (11.6 oz/gal) (1:11). Use a sponge, mop or cloth to wash the surface with this solution.

Floor cleaning: Dilute 12.5 ml of C.D.S per litre of water (1.6 oz/gal) (1:80) for wet mopping or auto scrubbing.

No-rinse sanitizer for food contact surfaces: 200ppm active QUATS. Dilute 11 ml of C.D.S per litre of water (1.4 oz/gal) (1:91).

NOTE: *Ensure surfaces are cleaned (i.e. organic matter and debris are removed) prior to sanitizing. A suitable concentration/ppm testing method must be available and used regularly to ensure correct sanitizer levels. Sanitized surface must be air-dried.*

FOR USE IN FOOD PLANTS: All food should be removed or covered prior to use and food contact surfaces are to be thoroughly rinsed with potable water so there will be no contamination of food as a result of its use.

Application:

Spot cleaning heavily soiled surfaces	Full strength
Large surface cleaning	1:11
Floor cleaning	1:80
No-rinse sanitizer for food contact surfaces	1:91

STORAGE

Keep in a cool, well-ventilated place away from heat. Keep cool. Protect from sunlight. Always store product in container of same material as original container.

SAFE HANDLING

Before usage, ensure employees read and understand the product labels and Safety Data Sheet. Directions for use can be found on the label and the TDS. Employees can find hazard warnings, precautionary statements and first aid procedures on the SDS sheets. SDS are available online at projectclean.com or by calling 1-800-663-9925. Improper use may result in damage or injury.
